lara croft and the guardian of light raziel and kain character pack

The game, without this DLC, is worthless to me. I sort of wish there was a 'maybe' button in terms of recommendations. It's cute if you don't mind these epic two anti heroes being particularly out of character. Anywho, here we find Raziel, one-winged and gunslinging, and not amused by the predicament he has found himself in. Kain, still determined to escape the temple with his friend, brings his drama to the upteenth degree. Okay, so it's not the post-Defiance interaction we were hoping for, and certainly not of the same quality. But it has its entertaining moments, and I'm not sure what else we could have expected. TL;DR-It's something. But I would argue that it's still a better spinoff than Nosgoth.. It's not worth it if you aren't Raziel and Kain fans. Kane & Lynch better and free.. All it is, literally, is just replacing Lara and Totec's models with Raziel and Kain's. You have Raziel using dual pistols and grappling hooks despite having a sword bound permanently to his arm or the two wings on his back. There is voice acting, but it sounds like they just took audio tracks from Soul Reaver 1&2 and just repitched it in an audio program.. Only fans of Raziel and Kain should get this. You wouldn't appreciate the dialogue if you don't know about them. However, it is worth it when it is on sale for 80% off.. repitched it in an audio program.. Got all the DLC from a bundle, they add a lot more content.. Why so many negatives reviews? this is some great DLC. You can play with skins of Kain and Raziel, the main characters from the Legacy of Kain series. Not only that, the cutscenes have voice acting taken from the games, and although it would have been awesome to listen to Simon Templeman and Michael Bell doing some new work, the guys behind this DLC managed to make some hilarious conversations between these two. If you are a fan of the LoK series, get this ASAP, and if you are not, what are you waiting for, get those games!. The game, without this DLC, is worthless to me.
